Summer School: 4th Annual Summer School on Sustainable Climate Risk Management

15.-19. August 2016, Penn State/USA

CE among other topics. "A key focus of the workshop is developing a common vocabulary to help foster enhanced cross-disciplinary communication, enabling the possibility for future collaborative research. Participants will also gain hands-on experience with key methods and tools including robust decision-making, use of simple models, and analysis of relevant datasets."
