Conference: Achieving Net Zero

9. - 11. September 2019, Oxford / UK

"We propose a two-day conference spread over three days (half-day/full day/half-day) starting after lunch on Monday 9th September and concluding before lunch on Wednesday 11th September. The conference programme is inspired by the format of the Talanoa Dialogue."

Public Meeting: New tools for Climate Repair: an introduction for engineers

11. September 2019, London / UK

"With the full support and participation of the physical chemist, Sir David King FRS, former Chief Scientific Adviser to the Prime Minister (2000 -2007) this important meeting will not only introduce tools and technologies which could repair the Earth's climate, but also outline the role for engineers if these ambitions are to be achieved."
