### **Workshop: 2020 ACCP Modeling & Assimilation Virtual Workshop**

**10. - 12. November 2020, online**

"The NASA ACCP Study Team would like to (1) survey the modeling community for where models may be in 10 years, (2) understand the state of the art for analysis and assimilation of earth observations, and (3) enhance interactions between satellite and modeling experts for cloud and aerosol science by challenging the community to think about new methods for model-satellite observation synergies."
