

Climate Engineering Newsletter for Week 49 of 2018

Upcoming Events

- [4.12.2018](#), Symposium: (Sulphate) Geoengineering - Feasibility, Risks, Alternatives, Utrecht / Netherlands
- [04.12.2018](#), Online Workshop: Greenhouse Gas Removal
- [06.12.2018](#), Online Workshop: Greenhouse Gas Removal
- [10.-14.12.2018](#), Conference: AGU Fall Meeting 2018, Washington DC / USA
- [17.01.2019](#), Online Workshop: Greenhouse Gas Removal
- [22.01.2019](#), Online Workshop: Greenhouse Gas Removal
- (new) [5.02.2019](#), Discussion: Ocean Climate Geoengineering Roundtable, Washington DC / USA
- [11.-13.03.2019](#), Conference: Scenarios Forum 2019, Denver, CO / USA
- [18.-21.03.2018](#), Conference: Geoscience & Society Summit, Stockholm / Sweden
- [19.-23.03.2019](#), Workshop: Climate Change Impacts and Risks in the Anthropocene (C-CIA), Riederalp, Canton of Valais, Switzerland
- [8.-13.09.2019](#), Summer School: 18th International SWISS CLIMATE SUMMER SCHOOL, Monte Verità, Ascona / Switzerland

Calls & Deadlines

- [10.01.2019](#), Call for Abstracts: Ocean-based negative emission technologies: Feasibility, costs and side-effects (EGU)

Jobs

- (new) [11.12.2018](#), Job at Union of Concerned Scientists
- [14.01.2019](#), Job at UCLA
- (no deadline), Job at University of Auckland, New Zealand
- (no deadline), Job at Lawrence Livermore National Laboratory
- (no deadline), Job at University of Virginia

Publications

- [Nauer, P.; et al. \(2018\)](#): Termite mounds mitigate half of termite methane emissions

Political Papers

- [C2G2](#): Governing large-scale carbon dioxide removal: are we ready?

Projects

(no new projects)

Selected Media Responses

- [Helmholtz](#): Climate Engineering: Tinkering the Climate (German)
- [BBC News](#): Climate change: Can 12 billion tonnes of carbon be sucked from the air?
- [UrbDeZine](#): Climate Change Geoengineering: Moral Hazard of the Moral Hazard argument
- [The Times](#): Fake eruption could dim sun and combat global warming
- [npla](#): Geoengineering: Climate experiments at the expense of the poor (German)
- [Der Tagesspiegel](#): It does not work without geoengineering (German)
- [The Conversation](#): COP24: rewilding is essential to the UK's commitments on climate change
- [Earther](#): No, Scientists Didn't Just Suggest We 'Dim the Sun' to Stop Climate Change
- [heise online](#): Geoengineering: Scientists want to test a way to cool the earth (German)
- [Oil and Gas Climate Initiative](#): OGCi Climate Investments announces progression of the UK's first commercial full-chain Carbon Capture, Utilization and Storage Project
- [Biomass](#): Drax: Bioenergy carbon capture, storage pilot now underway
- [LegalPlanet](#): Don't Believe Everything That You Read
- [Nature](#): First sun-dimming experiment will test a way to cool Earth
- [Mirror](#): Scientists are suggesting we dim the Sun to save the world
- [FAZ](#): We are not prepared for an emergency (German)
- [FAZ](#): Manipulating the climate? (German)
- [C2G2](#): Governing Carbon Dioxide Removal
- [The Heartland Institute](#): Geo-engineering: Ignoring the Consequences
- [DieDebatte](#): Live debate: Geoengineering - manipulating the climate? (German)
- [idw](#): COP24: Acute pressure to act despite expansion of CO2 budget (German)
- [Business Green](#): Net Zero Now
- [Die Debatte](#): "We would have stored CO2 in the ground for years." (German)
- [Süddeutsche Zeitung](#): Pie in the Sky (German)
