## **Final Symposium: Marsilius Project „The Global Governance of Climate Engineering”**

**27.-28.09.2012, Heidelberg/Germany**

Final symposium of the interdisciplinary Marsilius Project in Heidelberg. For participation send an email to [CE-Symp@eco.uni-heidelberg.de](mailto:CE-Symp@eco.uni-heidelberg.de).

"On September 27th, 10 a.m., Prof. Scott Barrett (Columbia University) will be giving an introductory lecture on climate change and geoengineering. This will be followed by short presentations on the project's results by some of the project's members. On September 28th, a science panel as well as a policy panel will be held, with international researchers and political decision makers as discussants. "
