## **FutureMetrics Analysis (2020): Using Biomass Carbon Capture and Sequestration to achieve NEGATIVE carbon emissions**

FutureMetrics Analysis (2020): Using Biomass Carbon Capture and Sequestration to achieve NEGATIVE carbon emissions. White Paper, December 30, 2020.

"This short white paper and the accompanying dashboard show how combining the use of sustainably sourced wood pellets and carbon capture and sequestration in a power plant can achieve significant negative CO2 emissions. The paper shows why BCCS must be part of every decarbonization strategy."
